Cephalalgia 1997;17. Oslo. ISSN 0333-1024

Subject index

$5HT_1$
Responsiveness of non-HIS migraine and tension-type headache to sumatriptan, 588
$5HT_1B/1D$-receptor
Differential distribution of $5HT_1D$ and $5HT_1B$ immunoreactivity within the human trigemino-cerebrovascular system: implications for the discovery of new antimigraine drugs, 833
$5H_{1B/D}$ receptors
Intensity dependence of the cortical auditory evoked potentials as a surrogate marker of CNS serotonin transmission in man: demonstration of a central effect for the $5HT_{1B/1D}$ agonist zolmitriptan (311C90, Zomig®), 849
$5HT_{ID}$ receptor agonist
Double-blind, placebo-controlled, dose-finding study of rizatriptan (MK-462) in the acute treatment of migraine, 647
5-hydroxytryptamine
Headache induced by serotonergic agonists–a key to the interpretation of migraine pathogenesis?, 3
acute migraine
Oral and subcutaneous sumatriptan in the acute treatment of migraine: an open randomized cross-over study, 591
adaptive
A clinical review of the adaptive role of vasopressin in migraine, 561
adolescence
Prevalence of sleep disorders in childhood and adolescence with headache: a case-control study, 492
adverse drug reaction
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
algometry
The reproducibility of cephalic pain pressure thresholds in control subjects and headache patients, 748
angina
Anginal headache and its bias, 195
antimigraine drugs
Differential distribution of $5HT_1D$ and $5HT_1B$ immunoreactivity within the human trigemino-cerebrovascular system: implications for the discovery of new antimigraine drugs, 833
antinociception
A clinical review of the adaptive role of vasopressin in migraine, 561
ascending forebrain serotonergic tract (AFST)
Role of the suprachiasmatic nucleus in the pathogenesis of migraine attacks, 723
aspartate
Erythrocyte and plasma levels of glutamate and aspartate in children affected by migraine, 652
aura
A 40-year follow-up of school children with migraine, 488
autonomic nervous system
Power spectral analysis of heart rate and diastolic blood pressure variability in migraine with and without aura, 756
behavior control
A clinical review of the adaptive role of vasopressin in migraine, 561
behavioral treatment
Home-based behavioral treatments for chronic benign headache–a meta-analysis of controlled trials, 113
beta-blockade
Prophylactic treatment of migraine with bisoprolol: a placebo-controlled study, 596
bisoprolol
Prophylactic treatment of migraine with bisoprolol: a placebo-controlled study, 596
bradykinin
Ketoprofen and carotico-cavernous fistula, 40
caffeine withdrawal
Influence of caffeine and caffeine withdrawal on headache and cerebral flow velocities, 188
calcitonin gene-related peptide
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
calcium gene-related peptide
Release of histamine from dural mast cells by substance P and calcitonin gene-related peptide, 166
canine saphenous veins
Migraine therapy: relationship between serotonergic contractile receptors in canine and rabbit saphenous veins to human cerebral and coronary arteries, 631
carotico-cavernous fistula
Ketoprofen and carotico-cavernous fistula, 40
central sensitization
Serotonin metabolism in chronic tension-type headache, 843
cerebrovascular reactivity
Cerebrovascular reactivity in migraine during headache-free intervals, 191
cervical spinal cord
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
cervicogenic headache
Headache and the cervical spine–a critical review, 801
CGRP
Intravital microscope studies on the effects of neurokinin agonists and calcitonin gene-related peptide on dural vessel diameter in the anaesthetized rat, 518
child
Outcome of early school-age migraine, 662
childhood
A 40-year follow-up of school children with migraine, 488
Prevalence of sleep disorders in childhood and adolescence with headache: a case-control study, 492
Chile
Epidemiology of migraine headache in Santiago, Chile: a prevalence study, 770
chocolate
A double-blind provocative study of chocolate as a trigger of headache, 800, 855

chronic paroxysmal hemicrania
A CPH-like picture in two patients with an orbiotocavernous sinus syndrome, 608
clinical evaluation
Migraine with and without aura in the same patient: expression of a single clinical entity?, 585
clinical trials
Migraine prophylactic drugs–proof of efficacy, utilization and cost, 73
Verbal scales in the acute treatment of migraine: semantic categories and clinical relevance, 37
cluster headache
Cluster headache after orbital exenteration, 680
Direct evidence for central sites of action of zolmitriptan (311C90): an autoradiographic study in cat, 153
Symptoms and disease and smoking habits in female episodic cluster headache and migraine patients–a brief report, 499
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
comparative trial
Oral and subcutaneous sumatriptan in the acute treatment of migraine: an open randomized cross-over study, 591
convergence
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
cortical auditory evoked potential
Intensity dependence of the cortical auditory evoked potentials as a surrogate marker of CNS serotonin transmission in man: demonstration of a central effect for the $5HT_1B/1D$ agonist zolmitriptan (311C90, Zomig®), 849
cortical spreading depression
Enhanced nitric oxide release during cortical spreading depression following infusion of glyceryl trinitrate in the anaesthetized cat, 159
Erythrocyte and plasma levels of glutamate and aspartate in children affected by migraine, 652
Furosemide inhibits regenerative cortical spreading depression in anaesthetized cats, 826
cortisol and PRL
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
cross-over study
Oral and subcutaneous sumatriptan in the acute treatment of migraine: an open randomized cross-over study, 591
definition
Headache and the cervical spine–a critical review, 801
differential diagnosis
Headache and the cervical spine–a critical review, 801
discomfort
Light-induced discomfort and pain in migraine, 733
divalproex sodium
Divalproex sodium in migraine prophylaxis: a dose-controlled study, 103
Doppler sonography
Nitric oxide synthase inhibition in the histamine headache model, 175
drug therapy
Migraine prophylactic drugs–proof of efficacy, utilization and cost, 73
dura mater
Release of histamine from dural mast cells by substance P and calcitonin gene-related peptide, 166
EEG fast activity
Endozepine stupor in children, 658
electroretinograms
Simultaneous recording of pattern reversal electroretinograms and visual evoked potentials in migraine, 742
endozepine-4
Endozepine stupor in children, 658
epidemiology
Epidemiology of migraine headache in Santiago, Chile: a prevalence study, 770
Prevalence of migraine in Japan: a nationwide survey, 15
episodic cluster headache
Double-blind placebo-controlled trial of lithium in episodic cluster headache, 673
ergotamine
Peripheral vascular effects and pharmacokinetics of the antimigraine compound, zolmitriptan, in combination with oral ergotamine in healthy volunteers, 639
experimental headache
Nitric oxide synthase inhibition in the histamine headache model, 175
eye movements
Migraine-associated vertigo, 505
factor V mutation
The factor V Leiden mutation (R506Q) is not a major risk factor for migrainous cerebral infarction, 605
fatty acids
Prophylactic treatment of migraine with gamma-linolenic and alpha-linolenic acids, 127
fenfluramine
Headache induced by serotonergic agonists–a key to the interpretation of migraine pathogenesis?, 3
flumazenil
Endozepine stupor in children, 658
follow-up
A 40-year follow-up of school children with migraine, 488
four-point verbal rating scale
Verbal scales in the acute treatment of migraine: semantic categories and clinical relevance, 37
functional disability scale
Verbal scales in the acute treatment of migraine: semantic categories and clinical relevance, 37
fundus pulsations
Nitric oxide synthase inhibition in the histamine headache model, 175
furosemide
Furosemide inhibits regenerative cortical spreading depression in anaesthetized cats, 826
genetics
Prevalence of migraine in Japan: a nationwide survey, 15
geniculohypothalamic tract (GHT)
Role of the suprachiasmatic nucleus in the pathogenesis of migraine attacks, 723
glutamate
Erythrocyte and plasma levels of glutamate and aspartate in children affected by migraine, 652
glyceryl trinitrate
Enhanced nitric oxide release during cortical spreading

depression following infusion of glyceryl trinitrate in the anaesthetized cat, 159
headache
A double-blind provocative study of chocolate as a trigger of headache, 855
Anginal headache and its bias, 195
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
Headache during pregnancy, 765
Home-based behavioral treatments for chronic benign headache–a meta-analysis of controlled trials, 113
Ketoprofen and carotico-cavernous fistula, 40
Migraine prophylactic drugs–proof of efficacy, utilization and cost, 73
Post-lumbar puncture headache: clinical features and suggestions for diagnostic criteria, 778
Prevalence of sleep disorders in childhood and adolescence with headache: a case-control study, 492
The reproducibility of cephalic pain pressure thresholds in control subjects and headache patients, 748
headache-free interval,
Cerebrovascular reactivity in migraine during headache-free intervals 191
health-related quality of life
Improvement in migraine-specific quality of life in a clinical trial of rizatriptan, 867
heart rate variability
Power spectral analysis of heart rate and diastolic blood pressure variability in migraine with and without aura, 756
histamine
Nitric oxide synthase inhibition in the histamine headache model, 175
Release of histamine from dural mast cells by substance P and calcitonin gene-related peptide, 166
home-based
Home-based behavioral treatments for chronic benign headache–a meta-analysis of controlled trials, 113
homeopathy
Classical homeopathic treatment of chronic headaches, 119
Double-blind randomized placebo-controlled study of homoeopathic prophylaxis of migraine, 600
human cerebral arteries
Migraine therapy: relationship between serotonergic contractile receptors in canine and rabbit saphenous veins to human cerebral and coronary arteries, 631
human coronary arteries
Migraine therapy: relationship between serotonergic contractile receptors in canine and rabbit saphenous veins to human cerebral and coronary arteries, 631
hypothalamus
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
inflammation
A CPH-like picture in two patients with an orbiotocavernous sinus syndrome, 608
intracranial hypotension
Recurrence of spontaneous intracranial hypotension with subdural hematomas, 42
intranasal absorption
Safety tolerability, and pharmacokinetics of sumatriptan in healthy subjects following ascending single intranasal doses and multiple intranasal doses, 541
intravital microscopy
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
Japan prevalence
Prevalence of migraine in Japan: a nationwide survey, 15
ketoprofen
Ketoprofen and carotico-cavernous fistula, 40
lamotrigine
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
lanepitant
In effectiveness of neurokinin-1 antagonist in acute migraine: a crossover study, 785
leukotrienes
Ketoprofen and carotico-cavernous fistula, 40
lithium
Double-blind placebo-controlled trial of lithium in episodic cluster headache, 673
low cerebrospianl fluid pressure
Post-lumbar puncture headache: clinical features and suggestions for diagnostic criteria, 778
lumbar puncture
Post-lumbar puncture headache: clinical features and suggestions for diagnostic criteria, 778
mast cells
Release of histamine from dural mast cells by substance P and calcitonin gene-related peptide, 166
m-chlorophenylpiperazine
Headache induced by serotonergic agonists–a key to the interpretation of migraine pathogenesis?, 3
m-chlorophenylpiperazine
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
melatonin
Nocturnal plasma melatonin profile and melatonin kinetics during infusion in status migrainosus, 511
microviscosity
Oxidative stress and platelet responsiveness in migraine, 580
middle meningeal artery
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
migraine with and without aura
Regional cerebral blood flow and oxygen metabolism during migraine with and without aura, 570
migraine with aura
Cerebrovascular reactivity in migraine during headache-free intervals, 191
Migraine with and without aura in the same patient: expression of a single clinical entity?, 585
Oxidative stress and platelet responsiveness in migraine, 580
Power spectral analysis of heart rate and diastolic blood pressure variability in migraine with and without aura, 756
migraine without aura
Cerebrovascular reactivity in migraine during headache-free intervals, 191
Migraine with and without aura in the same patient: expression of a single clinical entity?, 585

Power spectral analysis of heart rate and diastolic blood pressure variability in migraine with and without aura, 756
migraine
A double-blind provocative study of chocolate as a trigger of headache, 855
A 40-year follow-up of school children with migraine, 488
A clinical review of the adaptive role of vasopressin in migraine, 561
A within-patient comparison of subcutaneous and oral sumatriptan in the acute treatment of migraine in general practice, 31
Classical homeopathic treatment of chronic headaches, 119
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
Direct evidence for central sites of action of zolmitriptan (311C90): an autoradiographic study in cat, 153
Divalproex sodium in migraine prophylaxis: a dose-controlled study, 103
Double-blind randomized placebo-controlled study of homoeopathic prophylaxis of migraine, 600
Enhanced nitric oxide release during cortical spreading depression following infusion of glyceryl trinitrate in the anaesthetized cat, 159
Epidemiology of migraine headache in Santiago, Chile: a prevalence study, 770
Erythrocyte and plasma levels of glutamate and aspartate in children affected by migraine, 652
Frequency of severe attacks in migraine sufferers of the Gazel cohort, 863
Furosemide inhibits regenerative cortical spreading depression in anaesthetized cats, 826
Haemodynamic correlates of early and delayed responses to sublingual administration o isosorbide dinitrate in migraine patients: a transcranial Doppler study, 183
Headache during pregnancy, 765
Headache induced by serotonergic agonists–a key to the interpretation of migraine pathogenesis?, 3
Improvement in migraine-specific quality of life in a clinical trial of rizatriptan, 867
In effectiveness of neurokinin-1 antagonist in acute migraine: a crossover study, 785
Influence of caffeine and caffeine withdrawal on headache and cerebral flow velocities, 188
Intensity dependence of the cortical auditory evoked potentials as a surrogate marker of CNS serotonin transmission in man: demonstration of a central effect for the $5HT_{1B/1D}$ agonist zolmitriptan (311C90, Zomig®), 849
Intravital microscope studies on the effects of neurokinin agonists and calcitonin gene-related peptide on dural vessel diameter in the anaesthetized rat, 518
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
Light-induced discomfort and pain in migraine, 733
Migraine prophylactic drugs–proof of efficacy, utilization and cost, 73
Migraine-associated vertigo, 505
Nocturnal plasma melatonin profile and melatonin kinetics during infusion in status migrainosus, 511
Olfaction in migraine, 729
Outcome of early school-age migraine, 662
Peripheral vascular effects and pharmacokinetics of the antimigraine compound, zolmitriptan, in combination with oral ergotamine in healthy volunteers, 639
Prevalence of migraine in Japan: a nationwide survey, 15
Prevalence of sleep disorders in childhood and adolescence with headache: a case-control study, 492
Preventive treatment of migraine–an overview, 67
Prophylactic treatment of migraine with bisoprolol: a placebo-controlled study, 596
Prophylactic treatment of migraine with gamma-linolenic and alpha-linolenic acids, 127
Responsiveness of non-HIS migraine and tension-type headache to sumatriptan, 588
Severe attacks or severe migraineurs, 799
Simultaneous recording of pattern reversal electroretinograms and visual evoked potentials in migraine, 742
Sumatriptan blocks spreading depression in isolated chick retina, 822
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
Symptoms and disease and smoking habits in female episodic cluster headache and migraine patients–a brief report, 499
The factor V Leiden mutation (R506Q) is not a major risk factor for migrainous cerebral infarction, 605
Treatment of migraine attacks with a long-acting somatostatin analogue (octreotide, SMS 201-995), 27
Verbal scales in the acute treatment of migraine: semantic categories and clinical relevance, 37
migrainous cerebral infarction
The factor V Leiden mutation (R506Q) is not a major risk factor for migrainous cerebral infarction, 605
MK-462
Double-blind, placebo-controlled, dose-finding study of rizatriptan (MK-462) in the acute treatment of migraine, 647
neurokinin-1 antagonist
In effectiveness of neurokinin-1 antagonist in acute migraine: a crossover study, 785
nitrates
Haemodynamic correlates of early and delayed responses to sublingual administration o isosorbide dinitrate in migraine patients: a transcranial Doppler study, 183
nitric oxide
Enhanced nitric oxide release during cortical spreading depression following infusion of glyceryl trinitrate in the anaesthetized cat, 159
Haemodynamic correlates of early and delayed responses to sublingual administration o isosorbide dinitrate in migraine patients: a transcranial Doppler study, 183
Investigations into the role of nitric oxide and the large intracranial arteries in migraine headache, 873
Nitric oxide synthase inhibition in the histamine headache model, 175
non-pharmacological
Home-based behavioral treatments for chronic benign headache–a meta-analysis of controlled trials, 113

occipital nerve
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
octreotide
Treatment of migraine attacks with a long-acting somatostatin analogue (octreotide, SMS 201-995), 27
offspring
A 40-year follow-up of school children with migraine, 488
olfaction
Olfaction in migraine, 729
onset
A 40-year follow-up of school children with migraine, 488
orbital exenteration
Cluster headache after orbital exenteration, 680
orbital pain syndrome
A CPH-like picture in two patients with an orbiotocavernous sinus syndrome, 608
orbitocavernous sinus syndrome
A CPH-like picture in two patients with an orbiotocavernous sinus syndrome, 608
oxidative stress
Oxidative stress and platelet responsiveness in migraine, 580
pain
Light-induced discomfort and pain in migraine, 733
Serotonin metabolism in chronic tension-type headache, 843
The reproducibility of cephalic pain pressure thresholds in control subjects and headache patients, 748
pathogenesis
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
pathophysiology
Headache and the cervical spine–a critical review, 801
patient preference
A within-patient comparison of subcutaneous and oral sumatriptan in the acute treatment of migraine in general practice, 31
peripheral vasculature
Peripheral vascular effects and pharmacokinetics of the antimigraine compound, zolmitriptan, in combination with oral ergotamine in healthy volunteers, 639
pharmacokinetics
Nocturnal plasma melatonin profile and melatonin kinetics during infusion in status migrainosus, 511
Peripheral vascular effects and pharmacokinetics of the antimigraine compound, zolmitriptan, in combination with oral ergotamine in healthy volunteers, 639
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532
Safety tolerability, and pharmacokinetics of sumatriptan in healthy subjects following ascending single intranasal doses and multiple intranasal doses, 541
photophobia
Light-induced discomfort and pain in migraine, 733
placebo
Classical homeopathic treatment of chronic headaches, 119
Double-blind randomized placebo-controlled study of homoeopathic prophylaxis of migraine, 600
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
placebo response
Double-blind placebo-controlled trial of lithium in episodic cluster headache, 673
platelets
Oxidative stress and platelet responsiveness in migraine, 580
positron emission tomography
Regional cerebral blood flow and oxygen metabolism during migraine with and without aura, 570
postural headache
Recurrence of spontaneous intracranial hypotension with subdural hematomas, 42
pregnancy
Headache during pregnancy, 765
pressure pain threshold
The reproducibility of cephalic pain pressure thresholds in control subjects and headache patients, 748
prevalence
A 40-year follow-up of school children with migraine, 488
Epidemiology of migraine headache in Santiago, Chile: a prevalence study, 770
preventive
Preventive treatment of migraine–an overview, 67
prognosis
A 40-year follow-up of school children with migraine, 488
Outcome of early school-age migraine, 662
prophylactic
Preventive treatment of migraine–an overview, 67
prophylactic treatment
Divalproex sodium in migraine prophylaxis: a dose-controlled study, 103
prophylaxis
Double-blind randomized placebo-controlled study of homoeopathic prophylaxis of migraine, 600
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
Prophylactic treatment of migraine with bisoprolol: a placebo-controlled study, 596
Prophylactic treatment of migraine with gamma-linolenic and alpha-linolenic acids, 127
quantitative measurement
Light-induced discomfort and pain in migraine, 733
rabbit saphenous veins
Migraine therapy: relationship between serotonergic contractile receptors in canine and rabbit saphenous veins to human cerebral and coronary arteries, 631
randomized controlled trial
Classical homeopathic treatment of chronic headaches, 119
Double-blind placebo-controlled trial of lithium in episodic cluster headache, 673
Double-blind randomized placebo-controlled study of homoeopathic prophylaxis of migraine, 600
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
receptor localization
Differential distribution of $5HT_1D$ and $5HT_1B$ immunoreactivity within the human trigemino-cerebrovascular system: implications for the discovery of new antimigraine drugs, 833

rectal absorption
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532
recurrence
Recurrence of spontaneous intracranial hypotension with subdural hematomas, 42
referred pain
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
regional cerebral blood flow
Regional cerebral blood flow and oxygen metabolism during migraine with and without aura, 570
regional cerebral oxygen metabolism
Regional cerebral blood flow and oxygen metabolism during migraine with and without aura, 570
reliability
The reproducibility of cephalic pain pressure thresholds in control subjects and headache patients, 748
resistance to activated protein C
The factor V Leiden mutation (R506Q) is not a major risk factor for migrainous cerebral infarction, 605
retina
Sumatriptan blocks spreading depression in isolated chick retina, 822
retinohypothalamic tract (RHT)
Role of the suprachiasmatic nucleus in the pathogenesis of migraine attacks, 723
retinorecipient zone (RR)
Role of the suprachiasmatic nucleus in the pathogenesis of migraine attacks, 723
rizatriptan
Double-blind, placebo-controlled, dose-finding study of rizatriptan (MK-462) in the acute treatment of migraine, 647
Improvement in migraine-specific quality of life in a clinical trial of rizatriptan, 867
Rizatriptan and quality of life, 800
safety
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532
Safety tolerability, and pharmacokinetics of sumatriptan in healthy subjects following ascending single intranasal doses and multiple intranasal doses, 541
selective 5HT reuptake inhibitors
Headache induced by serotonergic agonists–a key to the interpretation of migraine pathogenesis?, 3
self-injector
A within-patient comparison of subcutaneous and oral sumatriptan in the acute treatment of migraine in general practice, 31
sensory hyperacuity
Olfaction in migraine, 729
serotonin
Abnormal serotonin metabolism, 799
Intensity dependence of the cortical auditory evoked potentials as a surrogate marker of CNS serotonin transmission in man: demonstration of a central effect for the $5HT_{1B/1D}$ agonist zolmitriptan (311C90, Zomig®), 849
Serotonin metabolism in chronic tension-type headache, 843
The m-chlorophenylpiperazine test in cluster headache: a study on central serotoninergic activity, 666
serotonin agonist
Direct evidence for central sites of action of zolmitriptan (311C90): an autoradiographic study in cat, 153
serotonin receptors
Migraine therapy: relationship between serotonergic contractile receptors in canine and rabbit saphenous veins to human cerebral and coronary arteries, 631
severity
Frequency of severe attacks in migraine sufferers of the Gazel cohort, 863
sleep disorders
Prevalence of sleep disorders in childhood and adolescence with headache: a case-control study, 492
smoking
Symptoms and disease and smoking habits in female episodic cluster headache and migraine patients–a brief report, 499
somatostatin
Treatment of migraine attacks with a long-acting somatostatin analogue (octreotide, SMS 201-995), 27
spectral analysis
Power spectral analysis of heart rate and diastolic blood pressure variability in migraine with and without aura, 756
spreading cortical depression
Lamotrigine versus placebo in the prophylaxis of migraine with and without aura, 109
spreading depression
Sumatriptan blocks spreading depression in isolated chick retina, 822
stupor
Endozepine stupor in children, 658
subdural hematoma
Recurrence of spontaneous intracranial hypotension with subdural hematomas, 42
substance P
Intravital microscope studies on the effects of neurokinin agonists and calcitonin gene-related peptide on dural vessel diameter in the anaesthetized rat, 518
Release of histamine from dural mast cells by substance P and calcitonin gene-related peptide, 166
subtypes
Differential distribution of $5HT_1D$ and $5HT_1B$ immunoreactivity within the human trigemino-cerebrovascular system: implications for the discovery of new antimigraine drugs, 833
Sudeck-Lerich syndrome
Cluster headache after orbital exenteration, 680
sumatriptan
A within-patient comparison of subcutaneous and oral sumatriptan in the acute treatment of migraine in general practice, 31
Oral and subcutaneous sumatriptan in the acute treatment of migraine: an open randomized cross-over study, 591
Responsiveness of non-HIS migraine and tension-type headache to sumatriptan, 588
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532

Safety tolerability, and pharmacokinetics of sumatriptan in healthy subjects following ascending single intranasal doses and multiple intranasal doses, 541
Sumatriptan blocks spreading depression in isolated chick retina, 822
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
superior sagittal sinus
Convergence of occipital nerve and superior sagittal sinus input in the cervical spinal cord of the cat, 625
suppository
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532
suprachiasmatic nucleus (SCN)
Role of the suprachiasmatic nucleus in the pathogenesis of migraine attacks, 723
tension headache
Classical homeopathic treatment of chronic headaches, 119
tension-type headache
Headache during pregnancy, 765
Responsiveness of non-HIS migraine and tension-type headache to sumatriptan, 588
Serotonin metabolism in chronic tension-type headache, 843
therapy
Headache and the cervical spine–a critical review, 801
thiobarbituric acid assay
Oxidative stress and platelet responsiveness in migraine, 580
threshold
Light-induced discomfort and pain in migraine, 733
tolerability
Safety tolerability, and pharmacokinetics of sumatriptan suppositories following single and multiple doses in healthy volunteers, 532
Safety tolerability, and pharmacokinetics of sumatriptan in healthy subjects following ascending single intranasal doses and multiple intranasal doses, 541
transcranial
Haemodynamic correlates of early and delayed responses to sublingual administration o isosorbide dinitrate in migraine patients: a transcranial Doppler study, Doppler 183
transcranial Doppler sonography
Influence of caffeine and caffeine withdrawal on headache and cerebral flow velocities, 188
treatment
Direct evidence for central sites of action of zolmitriptan (311C90): an autoradiographic study in cat, 153
Double-blind placebo-controlled trial of lithium in episodic cluster headache, 673
Preventive treatment of migraine–an overview, 67
treatment strategies
Frequency of severe attacks in migraine sufferers of the Gazel cohort, 863
trigeminal
Sumatriptan inhibits neurogenic vasodilation of dural blood vessels in the anaesthetized rat–intravital microscope studies, 525
trigeminal nerve
Olfaction in migraine, 729
trigeminal neurones
Differential distribution of $5HT_1D$ and $5HT_1B$ immunoreactivity within the human trigemino-cerebrovascular system: implications for the discovery of new antimigraine drugs, 833
trigeminal nucleus
Direct evidence for central sites of action of zolmitriptan (311C90): an autoradiographic study in cat, 153
utilization
Migraine prophylactic drugs–proof of efficacy, utilization and cost, 73
vasodilation
Intravital microscope studies on the effects of neurokinin agonists and calcitonin gene-related peptide on dural vessel diameter in the anaesthetized rat, 518
vasomotor control
A clinical review of the adaptive role of vasopressin in migraine, 561
vasopressin
A clinical review of the adaptive role of vasopressin in migraine, 561
vertigo
Migraine-associated vertigo, 505
visual aura
Simultaneous recording of pattern reversal electroretinograms and visual evoked potentials in migraine, 742
visual evoked potentials
Simultaneous recording of pattern reversal electroretinograms and visual evoked potentials in migraine, 742
weekend headache
Influence of caffeine and caffeine withdrawal on headache and cerebral flow velocities. 188
zolmitriptan
Peripheral vascular effects and pharmacokinetics of the antimigraine compound, zolmitriptan, in combination with oral ergotamine in healthy volunteers, 639
Intensity dependence of the cortical auditory evoked potentials as a surrogate marker of CNS serotonin transmission in man: demonstration of a central effect for the $5HT_{1B/1D}$ agonist zolmitriptan (311C90, Zomig®), 849

Cephalalgia 1997;17. Oslo. ISSN 0333-1024

Author index

Aaronson NK
An empirical comparison of four generic health status measures—the Nottingham Health profile, the Medical Outcomes Study 36-item Short-Form Health Survey, the COOP/WONCA charts, and the EuroQol instrument, 612

Aarup AL
Use of sumatriptan in Denmark in 1994–5—an epidemiological analysis of nationwide prescription data, 612

Abel S
The efficacy, safety and pharmacokinetics of eletriptan, following intravenous administration to patients experiencing migraine with or without aura, 415
The safety, tolerability, pharmacokinetics and pharmacodynamics of oral and intravenous eletriptan, a potent and selective "$5HT_{1D}$-like" receptor partial agonist, 414

Abu-Saad HH
How do school children cope with headache? 298
How do school children experience headache? 299

Accornero N
Recurrent neck pain as a variant of migraine—description of four cases, 713

Adam B
Efficacy and tolerability of subcutaneous sumatriptan for treatment of acute migraine attacks in daily medical practice, 426

Adams J
A multinational investigation of the impact of subcutaneous sumatriptan. 1. Design, methods and clinical findings, 714
A multinational investigation of the impact of subcutaneous sumatriptan. 2. Health-related quality of life, 713
